FARM LOAN ASSOCIATION

Will Probably Be Organized Here
Next Monday By Farmers Who
Wish To Borrow

Dr. J. G. Carpenter, of Stanford, has taken the lead for the organization of a local branch of the Federal Loan Association under the provisions of the new law by which the government will make loans to farmers on long time and low interest. Dr. Carpenter hands the L. J. the following statement in regard to the meeting proposed to be held here next Monday, County Court Day:

Wanted:—All farmers who have made application to join and organize the Farmers' Federal Loan Association to meet Monday, County Court Day at the courthouse at 2 P. M., Feb. 12, 1917 and make preliminary organization. All the farmers have to do, is to form themselves into a national farm loan association. Ten or more farmers may unite to form a farmers' national loan association, and elect President, Vice-President, Directors, five or more; Loan Committee and Secretary-treasurer. No one except farmers or those going to be farmers in the near future can join this association and no one except members of association can borrow. The lowest sum any farmer can borrow is \$100; the highest is \$10,000; can borrow 50 per cent. of the appraised value of land and 20 per cent. of the permanent improvements thereon.

Farmers must be stockholders. Each share is \$5 on every one hundred borrowed and must subscribe for stock to the amount of five per cent. of their desired loan. The borrower may pay in cash for his stock at the time he applies for membership or he may wait until his loan is received and then pay for his stock from the loan. Money can be borrowed to pay off mortgages; buy more land, or for the purchase of live stock; new buildings; viz a silo, house, barn fertilizer, drainage etc. The mortgage or loan may run not less than five years nor more than forty years. Interest never over six per cent, but about 4 or 5 per cent.

The Federal Loan Bank which receives the application for loans and other papers from the association, sends appraisers to examine the land and the financial condition of the proposed borrowers.

If these conditions are found satisfactory the Land Bank forwards the papers to the Federal Farm Loan Board with a recommendation, on approval by the Federal Farm Loan Board, a charter is granted to the applicants to do business in that county or district; the charter is then forwarded to the association by the Federal Land Bank. When the charter has been granted, the association can borrow money of the land bank. Ten members are enough to organize an association, but why not have 20, 50, 75 or 100 or more members? The more members we have the better it is for the farmers, people and community.

Appraisers furnished those desiring same. Do not forget the meeting at 2 P. M., Feb. 12, 1917 at the courthouse county court day.

Farmers solicited from Casey, Garrard, Rockcastle, Boyle and Pulaski counties. Many have signed applications from Lincoln and Pulaski and Lincoln and Casey lines.—Very truly, J. G. Carpenter, Office Lincoln County National Bank.

The Farm Loan Act

The Co-operative Banking Machinery
Establishing The Farm Loan Bill

Only farmers or prospective farmers who wish to borrow money may join the national farm loan associations provided under the Federal farm loan act. It takes ten or more to make up one of these associations. If a farmer wishes to borrow, he should find out if such an association has been formed in his community. If it has, he should make application to the secretary-treasurer for membership. If no association has been formed, he should attempt to get ten or more farmers who wish to borrow to meet for the purpose of organizing.

The process of organization is very simple. One of the members should write to the Federal Farm Loan Board, Washington, D. C., for blank articles of association. When they have been received, a meeting of the prospective borrowers should be called and these articles of association should be adopted, signed and acknowledged by each member. Each member will indicate the amount he wishes to borrow and the value and description of the land he wishes to use as security.

This association elects five or more directors, and these directors then elect a president, a vice president, a secretary-treasurer and a loan committee of three members.

This is as far as the association can go until after the Federal Land Bank of that district is established. Then upon application, the Federal Land Bank will furnish the local association with a blank application for charter, which should be filled out and filed with the Federal Land Bank, along with the articles of association.

These documents should be accompanied by a written, unanimous report of the loan committee placing a valuation on the lands of each of the members.

Then the appraiser of the Federal Land Bank will come to inspect the lands of the members and O. K. or reject the valuation prepared by the loan committee.

No one farmer may borrow more than \$10,000 nor less than \$100. No national farm loan association may start with less than \$20,000 of loans.

Each member joining the local association must buy stock in the association equal to 5 per cent. of the amount he borrows. If he borrows \$1,000 he will get \$950 in cash and a certificate of stock for \$50. Or he may make his loan \$1,050, and thus have a net loan of \$1,000 taking as long a time to repay the \$50 invested in stock as on the thousand borrowed. This investment is for the purpose of providing the increasing capital of the Federal Land Bank, and the local association invests it in the land bank stock. The borrower will get his money back when he pays off his mortgage, and will get what dividends it earns while it is invested.

Now, what is the object of requiring the borrowers to thus group themselves into loan associations? Primarily that the loan associations may eventually own the Federal land banks.

This is a co-operative banking system, and machinery must be provided for the government of the banks. Each of the local loan associations has a vote in the election of the directors in one of the Federal land banks. The loan committee, provided by the local association, is the agency for the valuation of the lands. The Board of Directors of the local association admits or rejects new members, according to their wishes. But, most important of all, since this system is co-operative, the borrowers must provide the money for the increasing capital of the bank—and they do this by investing in the local associations.

Loans made under this system may not exceed 50 per cent. of the appraised value of the land used as security, and not exceed 50 per cent. of the appraised value of the permanent, insured improvements thereon.

Non-land owners may become members of an association by indicating in their application what land they expect to come into possession of and against which the mortgage will be placed.

Amortization
It has always been recognized that the most effective aid one can get is that which enables him to help himself.

Some critics of the Federal farm loan act have charged that this act makes it too easy for farmers to get into debt and that there will be a tendency to overborrow.

A careful reading of the bill will show that this objection is met by very carefully limiting the use to which the borrowed money may be put and by the requirement that farmers gradually each year must reduce their indebtedness.

The farm loan act was designed to be helpful to the farmer of average operations who has heretofore been denied adequate credit. It wisely limits the loans to 50 per cent. of the appraised value of the security by cause of the security.

The use of the money is carefully limited to the purchase of land, to pay off existing indebtedness, to purchase live-stock or to make any productive improvement, such as fencing, drainage, buildings and machinery.

When money can be borrowed cheaply for productive use, a mortgage becomes an investment rather than a handicap. The farmer is enabled to get money to put his land to better use, so that the profits of his investment will pay off his indebtedness. Hereafter judicious borrowing on the part of the farmer will be regarded as business enterprise just as it is now considered beneficial for large commercial institutions to borrow.

The farm loan act creates a form of indebtedness which peculiarly fits the farmers' need. It recognizes that the farming business is one of slow returns.

So it provides that a mortgage made under the act shall be paid on through a long or short period of years. The mortgages may be made to run five to forty years, at the option of the borrower, and they must be paid off, interest and principal, in equal installments through the period of loans. Permission is given to pay all of the loan or any part of it on an interest-paying date after it has run five years.

To give the prospective borrower an exact idea of the size of the payments required annually to wipe out a mortgage in a given period, amortization tables have been prepared. The following table shows the amount of annual payments required to extinguish, in the period indicated, a thousand dollar loan bearing interest at 5, 5 1-2 and 6 per cent.

Term (years)	5%	5 1/2%	6%
10	\$129.50	\$135.67	\$135.87
15	96.34	99.33	102.96
20	80.24	83.68	87.18
25	70.95	74.55	78.23
30	65.05	68.81	72.65
35	61.07	64.97	68.97
40	58.28	62.32	66.46

So it will be seen that the Farm Loan Act, in addition to providing a way for the farmer to borrow to the limit of safety, provides that he must not borrow money to produce losses, and furnishes the machinery to get him out of debt in an honorable and business-like way. The Farm Loan Act helps the farmer by placing within his grasp the means to help himself. It makes for business initiative and independence.

Rev. D. M. Walker Goes To Shelbyville Then—Now Ill With Grip

Rev. D. M. Walker is still confined to his home with grip, and will probably be unable to preach Sunday. The Louisville Post of Wednesday contained a picture of Dr. Walker, which the L. J. reproduces above by courtesy.

sy of the Post, and the Post said the following:

Stanford, Ky., Feb. 7.—The Rev. David M. Walker, pastor of the Stanford Christian church for the past ten years, and who has just accepted a call to the pastorate of the church at Shelbyville, has announced that he will go to his new field March 1. Mr. Walker is regarded as one of the coming ministers of his denomination. Many who have heard him say that as a pulpit orator he is without a peer among the younger generation of preachers in Kentucky. Of a vigorous, forceful personality, he has taken the lead in this section of the State during his pastorate here in every campaign in which a moral issue has been involved or the betterment of the community and the home could be subserved.

During his pastorate here he has paid off a heavy debt which he found in the church when he came here; has seen the membership largely increased and the Sunday School put upon a basis of active work never known before.

He is a native of Alabama, and is thirty-eight years of age. He is a graduate of the College of the Bible at Lexington, and is a hard student and tireless worker. His wife is a daughter of former Congressman Samuel J. Pugh, of Lewis county, is a talented musician and their home life is ideal, with two attractive little daughters.

The pastorate of the Shelbyville church has been vacant since last September, when the Rev. Homer W. Carpenter resigned to accept the chancellorship of Transylvania University.

Certainly A Surprise

Thurmond K. Tudor And Miss Pearl Pearl Fields Wed In Cincinnati

The Cincinnati Enquirer Friday morning had the following item, which will be of much interest here:

They'll Surprise 'Em.
Thurmond K. Tudor, Stanford, Ky., merchant and Miss Pearl Fields, daughter of Squire W. M. Fields, one of the largest land owners in Central Kentucky, came to Cincinnati yesterday and were married. They had not informed relatives. Rev. Frank H. Nelson, pastor of Christ Episcopal church, officiated.

That this was a surprise to their host of friends "back home" is certainly the truth. The popular young couple had kept their secret well and left town without their destination or purpose being known except to a few intimate friends and loved ones who were told the secret.

Heartiest congratulations and good wishes will be extended them on all wishes when they return here to make their home, in a neat little cottage already prepared for the occasion.

The bride is a very attractive and popular daughter of Squire and Mrs. W. M. Fields, of Hustonville, formerly of this section. Mr. Tudor is one of Stanford's best known business men, a splendid young man in every way, hustling, progressive and possessing the esteem and confidence of the entire community.

Milt McCormack Gone

Popular West End Boy Crosses The Dark River To Brighter Shore

Milton McCormack, youngest son of Mr. and Mrs. Emmett McCormack died at his home at Hustonville on Thursday afternoon after a lengthy illness. Up until the young man's health failed a year or so ago, he was one of the most promising baseball nitches in the business and gave promise of going right to the top of his profession, which is so highly remunerative to star players. He was with Lexington in the Blue Grass League and afterwards played in the South Atlantic League. His health beginning to fail, he went west and remained a while, but continued to health home in the West End, where during his declining days he was given every attention that a loving mother and devoted father could think of. He was 30 years of age. In addition to his parents, he is survived by three sisters, Mrs. James H. Woods, and Mrs. Logan Hubble, near Stanford and Mrs. Charles A. Hart, of Hustonville. Milton was a splendid young man, very popular and highly esteemed by everyone who knew him. His death has caused a feeling of sadness all over the West End where he was especially well known. Funeral services were conducted Friday by Rev. A. H. Baugh, of the Christian church which the deceased had joined a number of years ago. Interment followed in the Hustonville cemetery.

Card From J. R. Mount

To the voters of the 18th Kentucky Senatorial District—I am a candidate for the State Senate, subject to the Democratic primary. I am for submitting a constitutional amendment for State-wide prohibition and so voted in the 1914 Legislature.

I will vote and work for said amendment when submitted, and am for National Prohibition. I am against the bill submitted by the State Tax Commission, because it will place greater burdens on real estate; will create additional offices. I am for a curtailment of State expenses by abolishing a number of superfluous and unnecessary State offices. I am for a reduction in the pay of members of the Legislature from \$10 to \$5 per day, and so voted in the 1914 Legislature. Respectfully, J. R. MOUNT.

He will be in Stanford Monday to speak to the voters. 12-11

Tobacco Still Way Up

Market At Danville Reopens Thursday With Splendid Prices

(Thursday's Danville Advocate)
After being closed down a day or so on account of the severe weather, the Danville tobacco market opened this morning with renewed enthusiasm and continued high prices. A number of record breaking averages were made and enthusiasm prevailed among the growers.

The season is coming strong from all directions, and buyers are bidding with more spiritedness than at any time in the past. Prices are still gradually growing higher. Some old frozen, frost bitten stuff that would not have brought a half a cent a pound last year brought \$14.50 per hundred this morning. This indicates in a way just what high prices are actually being paid. There is much tobacco still in the bales, and those who have waited will lose nothing if they sell their crops on the Danville market, as prices are steadily advancing. Some of the many high averages secured today were as follows:

Pollard and Sutton, of Garrard county, sold 1,985 pounds, at \$23.12; Coyle and Coyle, of Boyle county, sold 1,075 at \$20.23; W. G. Gooch, of Lincoln county, sold 2,450 pounds at \$19.41; Merriam and McConnell, of Boyle county sold 1,800 pound at \$21.27; Proctor and Denny, of Mercer county, sold 2,240 at \$20.71.

To Ailing Women

A Little Sound Advice Will Help Many A Sufferer In Stanford

No woman should consider herself healthy and well if the kidneys are weak. Poisons that are passed off when the kidneys are well, are retained in the body when the kidneys are disordered. If the kidneys and bladder become inflamed and swollen worse troubles may quickly follow. This is often the cause of bearing-down pains, lameness, backache, etc. Urine poisoning is also frequent cause of headaches, dizzy spells, languor, nervousness and rheumatic pain.

When suffering so, try Doan's Kidney Pills, a remedy that his proved to be a Stanford woman tell of her experience.

Mrs. E. J. Cooley, Whitley Ave., Stanford, says: "My kidneys were out of order and I felt run down and tired out. I had dull pains in my back and across my loins. The action of my kidneys was irregular. I read of Doan's Kidney Pills and bought some at the New Stanford Drug Co. This medicine soon put my kidneys in good order and relieved other symptoms of kidney trouble."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Cooley had. Foster-Milburn Co., Props., Buffalo, N. Y. 12-1

TREMBLING ON THE VERGE

But War Has Not Yet Been Declared Between U. S. and Germany—The Latest Information

Germany Thursday asked Ambassador Gerard, who is still in Berlin, to reaffirm treaties of 1799 and 1828 which protect merchants of Germany and the United States in the event of declaration of war. Mr. Gerard referred the German officials to the Spanish or Swiss intermediaries. There has been no denial from Germany that the United States ambassador is being held until Germany can satisfy herself that Count von Bernstorff has been properly treated.

The announcement has been made by the State Department on the authority of President Wilson that in case of war between the United States and a foreign power the government will under no circumstances take possession of the property of the subjects of such foreign nation "to which international understandings and the recognized law of the land give it no just claim or title."

The Holland-American line steamship Lyndam which turned back to New York a week out of port, is said to have been warned to do so by a German submarine just outside the war zone according to a wireless message received from one of the passengers.

Sweden will not acquiesce in the President's suggestion that neutral countries follow the action of the United States and sever diplomatic relations with Germany.

George Washington a negro fireman aboard the Turino, was killed when the steamer was sunk by a German submarine. He is believed to have been an American citizen. The only other American on was saved.

The British in the Somme region of France are keeping up their new offensive against the Germans in their efforts to push forward toward Baupenne. Southeast of Baupenne, on the Baupenne-Peronne road, they have taken the highest point of Sailly-Saillies hill and captured a considerable number of Germans and one machine gun. Along both sides of the Ancre river, west of Baupenne, further progress has been made.

Enemy and neutral ships aggregating 21,505 tons have been sunk by German submarines during the last 24 hours. Ten vessels in all were sent to the bottom during this period, six of them British steamers of an aggregate tonnage of 16,736. The neutrals sunk were a Norwegian ship and a Swedish steamer. A French trawler and a Russian ship were the other victims of the "U-boats."

Resolutions of the Senate conference Tuesday decided to stand back of Senator Poinsett's bill for immediate construction of twenty fleet and eighty coast submarines, at a cost of \$4,000,000.

Local Girls Entertained

The Cincinnati Enquirer Sunday had the following of much interest here, concerning Miss Berta Jenn Penny, daughter of Mr. and G. L. Penny, of this city, and Miss Emma Noe, who frequently visits her and has many admirers here: Yesterday afternoon at "Elmhurst" Mr. and Mrs. Telford Groeschel collected a dozen congenial few to hear Miss Emma Noe and Miss Jean Penny in an hour of music, after their return from New York, where Miss Minnie Tracey took them during the holidays to interest impresarios of the metropolis in the career of these young artists. Miss Noe is a pupil of Miss Tracey and has a beautiful voice, which yesterday was inspired to fresh successes by the happy surroundings of this beautiful old house. Miss Penny is one of Timothee's star pupils, and her violin numbers were followed by one or two whistling solos, which were capitally conceived. The affair was very impromptu and delightful, of course, as are all the events at "Elmhurst," the afternoon finishing with ten served in the stately dining room.

Stop Rheumatism Before It Takes Hold

You can do it by taking your blood clean. The kidneys filter out 100 grains of uric acid and other salts from the blood every 24 hours. When there is more than the kidneys can remove, it is deposited in muscles and joints, and painful rheumatism follows. S. S. S., for 50 years the most efficient of all blood tonics, will keep the blood pure and prevent disease. At your druggists.

SUCCESS OF A NEW REMEDY FOR BACKACHE, KIDNEYS, RHEUMATISM.

Dear Mr. Editor—I suffered for years with backache. Last March I tried "Anurie" and have used this new kidney medicine recently discovered by Dr. Pierce, and it was wonderful the way it eased the pain and gave me relief in such a short time. I have tried several medicines, but "Anurie" is the only one that gave satisfaction. I feel it my duty to recommend "Anurie Tablets" to any one who suffers as I did.

(Signed) MRS. MARGARET E. SNIDER.

NOTE: Folks in town and adjoining counties are delighted with the results they have obtained by using "ANURIC," the newest discovery of Dr. Pierce, who is head of the INVALIDS' HOTEL, and SURGICAL INSTITUTE, in Buffalo, N. Y. Those who started the day with a backache, stiff legs, aches and muscles, and an aching head (worn out before the day began because they were in and out of bed half a dozen times at night) are appreciating the perfect rest, comfort and new strength they obtained from Dr. Pierce's Anurie Tablets. To prove that this is a certain uric acid solvent and cures headache, kidney and bladder diseases and rheumatism, if you've never used the "Anurie," cut this out and send ten cents to Doctor Pierce for a large sample package. This will prove to you that "Anurie" is thirty-seven times more active than lithium in eliminating uric acid—and the most perfect kidney and bladder corrector. If you are a sufferer, go to your local druggist and ask for a 50-cent box of "Anurie." You run no risk for Dr. Pierce's good name stands behind this wonderful new discovery as it has for the past half century for his "Golden Medical Discovery," a general tonic made from roots with pure glycerine which makes the blood pure, his "Favorite Prescription" for weak women and "Pleasant Pellets" for liver ills.

Miss Amy Wright left a few days ago for Louisville to visit her aunt thence to Indianapolis to visit Mr. and Mrs. W. D. Wolf.

John Smiley, of Kidd's Store, was called to Lexington a few days ago to attend the burial of a relative.

Newton Jones' five acres of tobacco raised on B. W. Leigh's land at the fair grounds, averaged 2,110 to the acre and he sold same on the Danville markets at \$15.94 for the entire crop. It was thought at one time a complete loss as a lot of it was caught in a heavy frost.

Col. E. C. Hopper and Carrol B. Reid arrived home last Thursday from a business visit to Cincinnati and a week's outing.

Logan Hughes and Boyce Hunn of Stanford, were business guests of our city a few days ago.

Too cold for the ground hog to come out last Friday to see if he could see his shadow.

Neglected Colds Grow Worse

A cough that racks and irritates the throat may lead to a serious chronic cough, if neglected. The healing pine balsams in Dr. Bell's Pine Honey—Nature's own remedy—will soothe and relieve the irritation, breathing will be easier, and the antiseptic properties will kill the germ which retarded healing. Have it handy for croup, sore throat and chronic bronchial affections. Get a bottle today. Pleasant to take. At all Druggists, 25c.

Middleburg

Mrs. Maggie Bolin is very low of tuberculosis at the home of her sister, Mrs. A. E. McKinley, on Cemetery street.

Rev. J. W. Beagle, who has been pastor of the Baptist church here for nearly two years, has resigned and will likely devote his whole time to evangelistic work. Rev. Beagle was much liked not only by the Baptist people here but members of the other churches delighted in hearing him preach and were always present at his services. We regret that circumstances made it necessary for Rev. Beagle to leave us.

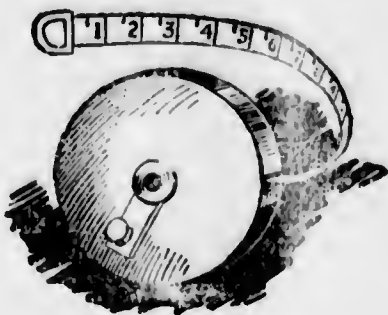

It is the consensus of opinion that Friday of last week was the roughest of the season. For anyone to stick their nose out without a covering was rather a risky business, but Jacob Myers went up against it and moved from Turnersville to the McAninch farm just above town.

The late deep snow and the extreme cold weather since is thought to have about wiped out the quail family. But few have been seen since the snow melted.

Family and Friends Count Most of All

We take his Measure—

In a Minute—

A Clean Slate—that's all—

They were a couple of fine old Southerners—you could tell that at a glance. They were talking about tobacco.

"Down South here, we judge a man by his family, don't we? If he is a gentleman, we take his measure in a minute, don't we? And, that's all we want to know, isn't it?"

"Say, friend," one said, "judge this cigarette the same way. He is a SOVEREIGN—that means he has blood and breeding—

comes from the finest family—and has heaps and heaps of good friends here in the South.

"He is made of the choicest and sweetest and mellowest of Virginia and Carolina tobacco; he is raised like a true Southern gentleman—in a fine, clean, healthful home. Let us all stick to him SOVEREIGN—King of them all."

And this all must be true, men, because

You Folks of the South KNOW good blood!

You Folks of the South KNOW good tobacco!

That's why everybody likes me—why the men of the South are smoking me by the millions every day. My! it's fine to be so popular—to have so many friends. And, then here's something more to think about:—

I am guaranteed by *The American Tobacco Co.* —Buy me. If you don't like me return me to your dealer and get your money back. I have said it. A Southern gentleman is known the world over for keeping his word, and I have given you mine.
